

OneInfinity Cyber Insurance

Comprehensive protection against cyber incidents, ransomware, data breaches, and AI-related cyber threats — built for the digital economy.

Cyber Attacks & Network Security

Protection against hacking, malware, unauthorized access, and system compromise.

Ransomware & Cyber Extortion

Coverage for ransom demands, negotiation costs, and incident response expenses.

Data Breach & Privacy Liability

Protection against loss, theft, or unauthorized disclosure of confidential or personal data.

24/7 Breach Response Hotline

Immediate access to expert incident response support through our trusted partner network.

Business Interruption & System Downtime

Coverage for loss of income and additional expenses resulting from cyber incidents or network disruption.

Data & System Restoration

Costs to restore, recover, or recreate data, software, and digital systems following a cyber event.

Third-Party Cyber Liability

Coverage for claims from customers, partners, or other third parties arising from cyber incidents.

AI-Related Cyber Risk Extension

OneInfinity provides coverage for cyber losses and third-party liability arising from security incidents involving artificial intelligence, including AI used within the insured's systems that contributes to a cyber incident, and AI exploited or manipulated as part of a cyberattack.

This extension reflects the reality that AI is increasingly embedded in business operations and actively leveraged by threat actors, while remaining firmly anchored to cyber and security-driven events.

Built-In Cyber Risk Visibility

Proactive Cyber Risk Assessment

As part of OneInfinity's underwriting and risk management approach, insureds benefit from a Cymetrics cyber security scan, providing an external view of the organization's cyber exposure, identification of potential vulnerabilities and security gaps, and a clearer understanding of cyber hygiene and risk posture.

This assessment supports informed underwriting, better risk alignment, and stronger cyber resilience, without disrupting business operations.

\$2M

Coverage Limit

Available protection up to USD
2,000,000

24/7

Incident Response

Claims-responsive protection when
you need it

Why OneInfinity

Built for Modern Digital Businesses

Cyber insurance designed specifically for technology-driven companies, digital platforms, fintechs, and Web3 businesses.

Proactive Risk Assessment

Combines insurance protection with comprehensive cyber risk evaluation and vulnerability identification.

AI-Ready Coverage

Covers both traditional cyber risks and emerging AI-related cyber exposures in today's threat landscape.

Business Continuity Focus

Aligned with evolving threats and regulatory requirements, focused on resilience and risk management.

Protect your business from cyber threats — today and tomorrow.

Contact OneInfinity to structure a cyber insurance solution aligned with your risk profile.
